GENERAL INFORMATION RELATING TO MIAMI-DADE COUNTY, FLORIDA

Set forth below is certain general information concerning the County government and certain governmental services provided by the County.

History

Miami-Dade County, Florida (the "County") is the largest county in the southeastern United States in terms of land area and population. The County currently covers 2,209 square miles located in the southeastern corner of the State of Florida (the "State"), and includes, among other municipalities, the cities of Miami, Miami Beach, Coral Gables and Hialeah. In 1999, the population of the County was estimated to have been 2,179,000.

The County was created on January 18, 1836 under the Territorial Act of the United States. It included the land area now contained in Palm Beach County and Broward County, together with the land area of the present County. In 1909, Palm Beach County was formed from the northern portion of what was then the County, and in 1915, Palm Beach County and the County contributed nearly equal portions of land to create what is now Broward County. There have been no significant boundary changes to the County since 1915.

County Government

The State Legislature in 1955 approved and submitted to a general election a constitutional amendment designed to give a new form of government to the County. The amendment was approved in a statewide general election in November, 1956. A Dade County Charter Board was constituted and, in April, 1957, it completed a draft of a charter for the County. The proposed charter was adopted in a County-wide election in May, 1957 and became effective on July 20, 1957 (the "Charter"). The electors of the County are granted power to revise and amend the Charter from time to time by County-wide vote. The most recent amendment was in 1996. The County has home-rule powers, subject only to the limitations of the Constitution and general laws of the State. The County has, in effect, a county government with certain powers effective throughout the entire County, including 30 municipalities located within the County, and a municipal government for the unincorporated area of the County. The County has not displaced or replaced the cities, but supplements them. The County can take over particular activities of a city's operations if the services fall below minimum standards set by the Board of County Commissioners of Miami-Dade County (the "Board"), or with the consent of the governing body of a particular city.

The County has a commission-strong mayor form of government. The Board, which consists of thirteen members elected from single member districts, is the legislative and governing body of the County and is responsible for the formation of all policies. The strong mayor, who is not a member of the Board, has veto authority over legislative acts, and has the power to appoint the County Manager. The strong mayor, first elected in October of 1996, is elected every four years in a County-wide election.

The County has assumed responsibility on a County-wide basis for an increasing number of functions and services, including the following:

(a) County-wide police services, complementing the municipal police services within the municipalities and providing full-service police protection for the unincorporated areas of the County, with direct access to the National Crime Information Center in Washington, D.C. and the Florida Crime Information Center;

(b) Uniform system of fire protection, complementing the municipal fire protection services within five municipalities and providing full-service fire protection for the Metro-Dade Fire and Rescue Service District, which includes the unincorporated area of the County and the 25 municipalities which have consolidated their fire departments within the Miami-Dade Fire and Rescue Department. The Miami-Dade Fire and Rescue Department also provides emergency medical services to respond to and provide on-site treatment to the seriously sick and injured. The operation of the Miami-Dade Fire and Rescue Department is governed by the Miami-Dade Fire and Rescue Service District Board;

(c) Consolidated two-tier court system, consisting of the higher Circuit Court that handles domestic relations, felonies, probate, civil cases where the amount in dispute is \$15,000 or more, juvenile cases, and appeals from the lower, County Court. The County Court handles violations of municipal ordinances, misdemeanors and civil cases where the amount in dispute is less than \$15,000;

(d) County-wide water and sewer system, is operated by the Water and Sewer Department;

(e) Jackson Memorial Hospital which is operated, maintained and governed by an independent governing body called the Public Health Trust (the "Trust"). The Board appoints members of the Board of Trustees for the Trust and also approves the budget of the Trust. The County continues to subsidize indigent patients on a contractual basis with the Trust;

(f) Unified transit system, consisting of various surface public transportation systems. In May, 1985, the 20.5 miles Phase I of the County's rapid rail transit system was completed and placed into operation. In April, 1986, the light rail component of the rapid rail transit system commenced operation, and two extensions have been constructed extending the service 1.4 miles south to the Brickell Avenue area and 1.1 miles north to the area known as Omni. These extensions were placed in service on May 26, 1994;

(g) Combined public library system, established by the County and 20 municipalities and consisting of the main library and 38 branches. Live programs are offered in education, information and entertainment throughout the system. Library members are encouraged to fulfill their "at home" needs with such material as books, recordings, videotapes, cassettes, and CD's;

(h) Property appraisal and tax collection, performed by the County Tax Collector, with all collected taxes distributed directly to the respective governmental entity, according to its respective tax levy and the amount of such taxes collected. The municipalities, Board of Public Instruction and several State agencies use data furnished to them by the County for the purpose of budget preparation and for their respective governmental operations;

(i) Minimum standards, enforceable throughout the County, in areas such as environmental resources management, building and zoning, consumer protection, health, housing and welfare;

(j) Garbage and trash collection and disposal services, consisting of garbage and trash collection services to approximately 274,999 households during 1999 within the unincorporated area and disposal services to public and private haulers County-wide;

(k) The Dante B. Fascell Port of Miami (the "Port") is owned and operated by the County through the Seaport Department. The Port is the world's largest cruise port in terms of cruise passengers, handling 3,112,355 passengers in Fiscal Year 1999. As of September, 1998, the Port had the largest container cargo port in the State and the eleventh largest in the United States in total number of containers held;

(l) The County owns and operates, through the Miami-Dade County Aviation Department, the following facilities: (i) the Miami International Airport (the "Airport"), the principal commercial airport serving South Florida; (ii) the Opa-locka Airport, a 1,810-acre facility, (iii) the Opa-locka West Airport, a 420-acre facility, (iv) the Kendall-Tamiami Executive Airport, a 1,380-acre facility, (iv) the Homestead Airport, a 960-acre facility and (vi) the Training and Transition Airport, a facility of approximately 24,300 acres located in Collier and Miami-Dade Counties; and

(m) Several miscellaneous services, including mosquito and animal control.

Economy

In recent years, the County has begun to shift from a tourist-oriented economy to an economy with a widely diversified economic base. Industry and manufacturing are strong economic forces in the County. While the County's share of the State's expanding tourist trade remains one of the major economic forces, the County's attractiveness as a residential area to skilled labor and its selection as the site for major and smaller light industrial activities have combined with tourism to produce a diversified economic base.

In an effort to further strengthen and diversify the County's economic base, the County in 1984 commissioned a private consulting firm to identify goals and objectives for various public and private entities. The Beacon Council is a public private partnership established to promote these goals and objectives.

International Commerce

The Greater Miami area is the center for international commerce in the southeastern United States. Its proximity to the Caribbean, Mexico, Central America and South America makes it a natural center of trade to and from North America. In addition, the international background of many of its residents is an essential labor force characteristic for multinational companies which must operate across language and cultural differences.

Trade with Latin America, Europe and countries in the Caribbean, during the past several years, has caused substantial growth in the number of financial institutions conducting business in the County. The large Spanish-speaking labor force, as well as the State's proximity to Latin America, have also contributed to the growth of the banking industry in the County. In 1998, there were 35 Edge Act Banks throughout the United States; 12 of those institutions were located in the County with \$5.4 billion on deposit as of December 30, 1998, according to the Federal Reserve Bank of Atlanta. Edge Act Banks are federally chartered organizations offering a wide range of banking services, but limited to foreign or international transactions only. Among these banking institutions are: Bank of Boston International; Republic International Bank of New York; Citibank International and Banco Santander International.

The County had the highest concentration of foreign bank agencies in the southeast United States with a total of 41 foreign chartered banks and over \$12.6 billion on deposit as of December 30, 1998 according to the Federal Reserve Bank of Atlanta.

Corporate Expansion

The favorable geographic location of the County, the trained commercial and industrial labor force and the favorable transportation facilities have caused the economic base of the County to expand by attracting many national and international firms doing business in Latin America. In Coral Gables alone, over 100 corporations have set up hemispheric operations. Among these corporations are: Dow

Chemical, General Electric Company, Ralston-Purina International, Dow Corning, ESSO Inter America, Inc., Panasonic and IBM Corporation.

In addition to the growth in manufacturing, significant strides have been made in the location of non-manufacturing firms in the County. Other national firms which established international operations or office locations in the County are: Borden, Inc., Burger King, Ciba Geigy Corporation, E.I. du Pont de Nemours & Co., Inc., 3M, Black & Decker (US), Inc., Caterpillar, Inc., and Eastman Kodak Company.

Industrial Development

The role of the Miami-Dade County Industrial Development Authority (the "IDA") is the development and management of economic development financing programs which serve as an incentive for private sector business and industry expansion and location in the County. Programs developed are consistent with the IDA's legal status and compatible with the economic development goals established by the Board and other economic development organizations operating in the County.

Since 1979, IDA has provided expansion and location assistance to 195 private sector businesses, accounting for a capital investment of \$695 million and the creation of over 11,286 new jobs.

IDA's principal program, tax-exempt industrial development revenue bonds, has generated 369 applications through September 30, 1999. Bonds for 178 companies have already closed for a total aggregate volume in excess of \$864 million. New jobs generated by these projects total 8,523.

Other Developmental Activities

In October, 1979, the Miami-Dade County Health Facilities Authority (the "Health Authority") was formed to assist not-for-profit health care corporations through the issuance of tax-exempt bonds or notes to acquire, construct, improve or refinance health care projects located in the County. Since its inception, the Health Authority has issued 22 series of revenue bonds for 15 projects and 15 advance refundings. As of September, 1999, the total amount of revenue bonds issued by the Health Authority was \$1,068,000,000.

In October, 1969, the Board created the Miami-Dade County Educational Facilities Authority (the "EFA") for the purpose of assisting institutions of higher learning within the County with an additional means to provide facilities and structures needed to maintain and expand learning opportunities and intellectual development. Since its inception, the EFA has issued 34 series of revenue bonds for 22 projects and 22 advance refundings, totaling \$782,640,000.

Since the inception of the Housing Finance Authority of Miami-Dade County (Florida) (the "HFA") in December, 1978, the HFA has generated \$981,244,000 of mortgage funds through the issuance of revenue bonds under the Single Family Mortgage Revenue Bond Program benefitting approximately 11,000 families in the County. The purpose of issuing these bonds is to provide the HFA with moneys to purchase mortgage loans secured by mortgages on single family residential real property owned by low and moderate income persons residing in the County.

Under the HFA's Multi-Family Mortgage Revenue Bond Program, as of September 30, 1999 revenue bonds aggregating \$669,410,385 have been issued for new construction or rehabilitation of 12,500 units.

The bonds issued by the foregoing authorities and the IDA are not debts or obligations of the County or the State or any political subdivision thereof, but are payable solely from the revenues provided by the respective private activity borrower as security therefor.

Film Industry

The County's film and television industry ranks third nationally behind Los Angeles and New York in gross revenues. According to a survey conducted by the Mayor's Office of Film and Entertainment, the economic impact of the industry was \$2.4 billion in 1998, with nearly a thousand companies and over 10,000 full time employees engaged in film and entertainment production activities within the County during the year. The County accounts for almost 50% of the State's annual film and entertainment production volume.

Surface Transportation

The County owns and operates through its Transit Agency (a County department) a unified multi-modal public transportation system. Operating in a fully integrated configuration, the County's Transit Agency provides public transportation services through: (i) Metrorail - a 21-mile, 21-station elevated electric rail line connecting South Miami-Dade and the City of Hialeah with the Downtown and Civic Center areas providing 14 million passenger trips annually; (ii) Metromover - a fully automated, driverless 4.25-mile elevated electric double-loop people-mover system interfaced with Metrorail and completing approximately 4.1 million passenger trips annually throughout 21 stations in the central business district and south to the Brickell International banking area and north to the Omni shopping area; and (iii) Metrobus - including both directly operated and contracted conventional urban bus service, operating over 27 million miles per year, interconnecting with all Metrorail stations and key Metromover stations, and providing over 80 million passenger trips annually.

Additionally, the County provides paratransit service to qualified elderly and handicapped riders through its Special Transportation Service which supplies over 757,000 passenger trips per year in a demand-response environment.

Airport

The County owns and operates the Airport, the principal commercial airport serving Southeast Florida. The Airport is currently handling approximately 34,004,000 passengers and 1,859,443 tons of air freight annually and is classified by the Federal Aviation Administration as a large hub airport, the highest classification given by that organization. The Airport is also one of the principal maintenance and overhaul bases, as well as a principal training center for the airline industry in the United States, Central and South America and the Caribbean.

A five year summary of the passengers served and cargo handled by the Airport is shown below:

Passengers and Cargo Handled by Miami International Airport 1995-1999

<u>Fiscal Year Ended September 30,</u>	<u>Passengers</u>	<u>Cargo (in tons)</u>
1995	32,852,524	1,703,367
1996	33,497,092	1,847,838
1997	34,375,177	1,934,133
1998	34,032,000	1,991,652
1999	34,004,000	1,859,443

Source: Miami-Dade County Aviation Department

Seaport

The Port, which covers 525 acres, is owned by the County and operated by the Seaport Department. It is the world's largest passenger port. Embarkations and debarkations on cruise ships totaled 3,112,355 for the Fiscal Year ended September 30, 1999. With the increase in activity from the recovering economies of the Caribbean Basin Nations and of South and Central America, cargo tonnage amounted to 6,930,372 tons at the Port for the Fiscal Year ended September 30, 1999.

The following table sets forth a five-year summary of both cruise passengers served and cargo handled:

Passengers and Cargo Handled by Port 1995-1999

<u>Fiscal Year Ended September 30,</u>	<u>Cruise Passengers</u>	<u>Cargo (tonnage)</u>
1995	2,974,703	5,840,815
1996	3,052,450	5,859,538
1997	3,191,885	6,735,388
1998	2,960,264	7,056,664
1999	3,112,355	6,930,372

Source: Miami-Dade County Seaport Department

Tourism

The Greater Miami area is a leading center for tourism in the State, with 47,500 of the State's inventory of hotel rooms as of December, 1999. In 1999, Miami was the primary destination for more nonresidential air travelers behind Orlando according to the Florida Division of Tourism of the Department of Commerce. It is also the principal port of entry in the State for international air travelers. During 1999, 83% of international air travelers (excluding travelers from Canada and Mexico) entering the State arrived through the Airport, according to statistics compiled by the U.S. Department of Transportation.

It is reported that the visitors market in the County is shifting away from the traditional tourist market to a "convention group market". This is reflected in the expansion and renovation of lodging facilities as well as in the marketing efforts of South Florida hoteliers, including the expansion and remodeling by the City of Miami Beach, with the assistance of the County, of the Miami Beach Convention Center, the largest existing convention center in the County, from 250,000 to 500,000 square feet of exhibition space. The convention group market is generally less sensitive to fluctuations in disposable personal income.

The following is a five-year schedule of domestic and international visitors and the estimated economic impact produced by those visitors:

Tourism Statistics						
1995-1999						
	<u>Visitors (in thousands)</u>			<u>Estimated Economic Impact (in thousands)</u>		
	<u>Domestic</u>	<u>Int'l</u>	<u>Total</u>	<u>Domestic</u>	<u>Int'l</u>	<u>Total</u>
1995	4,317	5,062	9,379	\$3,300,000	\$5,100,000	\$8,400,000

CONTINUING DISCLOSURE

The County has agreed, in accordance with the provisions of, and to the degree necessary to comply with, the secondary disclosure requirements of Rule 15c2-12 (the "Rule") of the Securities and Exchange Commission ("SEC"), to provide or cause to be provided for the benefit of the Beneficial Owners of any Series of Bonds issued after July 3, 1995 to each nationally recognized municipal securities information repository ("NRMSIR"), and to the appropriate State Information Depository ("SID"), if any, designated by the State, the following annual financial information or operating data (the "Annual Information"), commencing with the Fiscal Year ending September 30, 1996:

(1) Historical collections of the Pledged Revenues in a form which is generally consistent with the presentation of such information as it appears in the Official Statement for any Series of Bonds issued after July 3, 1995.

(2) The County's Comprehensive Annual Financial Report utilizing generally accepted accounting principles applicable to local governments.

The information in subparagraphs (1) and (2) above will be available on or before 243 days after the end of such Fiscal Year, and shall be made available to each NRMSIR, SID, if any, and each Beneficial Owner of any Series of Bonds issued after July 3, 1995 who requests such information. The County's Comprehensive Annual Financial Report referred to in subparagraph (2) above is expected to be available separately from the information in subparagraph (1) above and will be provided by the County as soon as practical after acceptance of such statements from the auditors by the County. If not, unaudited information will be provided within the time frame set forth above and audited financial statements will be provided as soon after such time as they become available.

The County has agreed to provide or cause to be provided, in a timely manner, to (i) each NRMSIR or the Municipal Securities Rulemaking Board ("MSRB"), and (ii) the SID, if any, notice of the occurrence of any of the following events with respect to any Series of Bonds issued after July 3, 1995, if, in the judgement of the County, such event is material:

- (1) principal and interest payment delinquencies;
- (2) non-payment related defaults;
- (3) unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) unscheduled draws on credit enhancements reflecting financial difficulties;
- (5) substitution of credit or liquidity providers, or their failure to perform;
- (6) adverse tax opinions or events affecting the tax-exempt status of the Bonds;
- (7) modifications to rights of holders of the Bonds;
- (8) bond calls;
- (9) defeasance;
- (10) release, substitution, or sale of any property securing repayments of the Bonds; and
- (11) rating changes.

The County has agreed to provide or cause to be provided, in a timely manner, to (i) each NRMSIR or to the MSRB, and (ii) the SID, if any, notice of its failure to provide the Annual Information with respect to itself on or prior to 243 days following the end of the preceding Fiscal Year.

The foregoing obligation of the County shall remain in effect only so long as any Series of Bonds issued after July 3, 1995 are outstanding. The County has reserved the right to terminate its obligation to provide the Annual Information and notices of material events, as set forth above, if and when the County no longer remains an "obligated person" with respect to any Series of Bonds issued after July 3, 1995 within the meaning of the Rule.

The County has agreed that its undertaking pursuant to the Rule set forth in this Section is intended to be for the benefit of the Beneficial Owners of any Series of Bonds issued after July 3, 1995 and shall be enforceable by such Beneficial Owners if the County fails to cure a breach within a reasonable time after receipt of written notice from a Beneficial Owner that a breach exists; provided that any such Beneficial Owner's right to enforce the provisions of this undertaking shall be limited to a right to obtain specific performance of the County's obligations in a Federal or State court located within the County and any failure by the County to comply with the provisions of this undertaking shall not be a default with respect to any Series of Bonds issued after July 3, 1995.

Additionally, the requirements of filing the Annual Information do not necessitate the preparation of any separate annual report addressing only any Series of Bonds issued after July 3, 1995. The requirements may be met by the filing of an annual information statement or the County's Comprehensive Annual Financial Report, provided such report includes all of the required annual information and is available by June 1 of each year for the preceding Fiscal Year. Additionally, the County may incorporate any information in any prior filing with each NRMSIR and the SID.

The County has reserved the right to modify, from time to time, the specific types of information provided or the format of the presentation of such information, to the extent necessary or appropriate in the judgment of the County, provided that the County has agreed that any modification will be done in a manner consistent with the Rule.

The County covenants as to secondary disclosure (the "Covenants") may only be amended if:

(A) the amendment is made in connection with a change in circumstances that arises from a change in legal requirements, change in law or change in the identity, nature or status of the County or the District or type of business conducted; the Covenants, as amended, would have complied with the requirements of the Rule at the time of award of any Series of Bonds issued after July 3, 1995, after taking into account any amendments or change in circumstances; and the amendment does not materially impair the interests of the Beneficial Owners, as determined by Bond Counsel or other independent counsel knowledgeable in the area of Federal securities laws and regulations; or

(B) all or any part of the Rule, as interpreted by the staff of the SEC at the date of the adoption of the Series Resolution, ceases to be in effect for any reason, and the County elects that the Covenants shall be deemed amended accordingly.

Any assertion of beneficial ownership must be filed, with full documentary support, as part of the written request described above.

The Board further authorizes and directs the Finance Director to cause all other Covenants to be made or action to be taken as required in connection with meeting the County's obligations as to the Covenants.

INVESTMENT POLICY

Pursuant to Florida Statutes 218.45 which requires a written investment policy by the Board, the County adopted an investment policy (the "Policy") which applies to all funds held by or for the benefit of the Board in excess of those required to meet short-term expenses, except for proceeds of bond issues which are deposited in escrow and debt service funds governed by their respective bond indentures.

The primary objectives of the Policy, listed in order of importance are:

1. the safety of principal;
2. the liquidity of funds; and
3. the maximization of investment income.

The Policy limits the securities eligible for inclusion in the County's portfolio to a maximum maturity of three (3) years. The Policy allows investments in repurchase agreements with a maximum length to maturity of 14 days from the date of purchase; the collateral shall be "marked to market" as needed.

To enhance safety, the Policy requires the diversification of the portfolio to reduce the risk of loss resulting from over-concentration of assets in a specific maturity, issuer or class of security. The Policy also requires the monthly performance reports to be presented to the County Clerk and to the County's Finance Director, quarterly performance reports to be submitted to the Investment Advisory Committee and an annual report to be presented to the Board within 90 days of the end of the Fiscal Year.

The Policy may be modified by the Board as it deems appropriate to meet the needs of the County.

YEAR 2000 DISCLOSURE

Background

A "Year 2000" problem arises because most computer systems and programs were designed to handle only a two-digit year, not a four-digit year. There was a concern that when the Year 2000 began, these computers would interpret "00" as the year 1900 (e.g. 1998 would be seen as "98") and would either stop processing data related computations or process them incorrectly. If this Year 2000 problem was not timely remedied, problems could arise in the levy and collection of Pledged Revenues and the calculation of interest and principal payments on any of the County Bonds. To prevent this, public entities and banking organizations needed to examine their computers and programs, fix the problem, test their systems and test interactions with other systems. The SEC introduced proposed temporary regulations for non-bank related paying agents and broker dealers to submit reports to the SEC regarding their attempts to solve the Year 2000 problem. Failure to solve the Year 2000 problem could adversely impact the levy and collection of Pledged Revenues which secure any of the County Bonds, and could cause the County, the Paying Agent and/or DTC to experience problems that may affect the timely payment of debt service on any of the County Bonds.

County

The County has represented that it has assessed the impact that the Year 2000 problem would have on its computer systems and has developed a plan to inventory all computer systems that are critical to the proper functioning of the County's operations, including financial applications and applications supporting services to the public. The County has established plans for repair of those systems that

are found to have date-related deficiencies. The County completed its Year 2000 compliance efforts in the middle of 1999; however, there can be no assurance that such efforts will prove successful in addressing all Year 2000 related problems. The County estimates the cost of remedying the Year 2000 problem to be between \$18.6 million and \$24.2 million.

The State Legislature enacted a law (codified as Section 282.4045, Florida Statutes) providing immunity for the State, its agencies and any unit of local government from damages related to Year 2000 problem failures, to the same extent that such governmental entities are currently immune from suits under the sovereign immunity laws of the State. The sovereign immunity laws provide that the State, its agencies and units of local government are not liable for a tort claim or judgment by any one person which exceeds the sum of \$100,000 or any claim or judgment, or any portions thereof, which, when totaled with all other claims or judgments paid by the governmental unit arising out of the same incident or occurrence, exceeds the sum of \$200,000, unless the State Legislature approves payment in the excess of such amounts.

Paying Agent

The Chase Manhattan Bank, New York, New York

The Chase Manhattan Bank intends to have its systems and technology infrastructure Year 2000 compliant before December 31, 1999. For updates on the its Year 2000 compliance, please consult the reports filed by The Chase Manhattan Corporation with the Securities and Exchange Commission.

The Bank of New York Trust Company of Florida, N.A.

The Bank of New York serves as Paying Agent for various Miami-Dade County bond issues. The Bank of New York has established a Year 2000 compliance program consisting of, among other things, updating major proprietary application systems and evaluating the Year 2000 compliance efforts of vendors of major vendor-supplied systems and certain other business partners. The Bank of New York believes that its Year 2000 compliance program is currently on schedule to meet the needs of its customers and the compliance deadlines defined by its regulators. As of December 31, 1998, testing and renovation of the proprietary application systems that the Bank of New York deems "mission critical" were substantially completed and these systems are currently being used by the Bank of New York. In addition, all vendor supplied software systems that the Bank of New York deems mission critical have been tested and, based upon such testing, the Bank of New York believes that such systems will not be adversely affected in a material way by the date change to the Year 2000.

Due to the general uncertainty inherent in the Year 2000 problem, resulting in part from the uncertainty of the Year 2000 readiness of suppliers, customers and other business partners, the Bank of New York is unable to determine at this time whether the consequences of Year 2000 failures will have a material impact on the Bank of New York and its obligations under the Paying Agent Agreements. The Year 2000 compliance program is intended to reduce significantly the Bank of New York's level of uncertainty about the Year 2000 problem and, in particular, the Year 2000 compliance and readiness of the Bank of New York and its material business partners. The Bank of New York believes that, with the completion of its Year 2000 compliance program as scheduled, the possibility of significant interrupts of normal operations should be reduced. However, because of the unprecedented nature of the Year 2000 problem, there can be no certainty as to its impact.

Bankers Trust Company, New York, New York

Bankers Trust has completed the application remediation required for the Year 2000. Testing/validation is complete, in accordance with regulatory guidelines. Bankers Trust's goal and corporate policy is to continue to provide our full range of products and services without interruption. Like all members of the global financial services community, and as a key financial services provider, Bankers Trust recognizes that the Year 2000 problem presents many risks. To address these risks,

Bankers Trust has created the "Bankers Trust Year 2000 Program", a global effort among their businesses working with clients, external technology providers, participants and regulators.

First Union National Bank, Miami, Florida

First Union National Bank, as Paying Agent for various Miami-Dade County bonds, has informed its customers, including the County, that it has committed the necessary resources to successfully implement its Year 2000 readiness project. Completion of the project is expected on schedule. First Union National Bank is in compliance with the requirements mandated by the financial institution regulatory agencies that regulate First Union National Bank related to Year 2000. First Union National Bank is not able to represent to the Year 2000 readiness of any other vendors or professionals in connection with Miami-Dade County bonds.

State Street Bank and Trust Company

Management of State Street Bank is committed to achieving Year 2000 compliance, and State Street Bank's Resolution 2000 Program is intended to address the risks inherent in the Year 2000 issues, both external and internal. As of December 31, 1998, management of State Street Bank was not aware of any circumstances that would cause Year 2000 problems to have a material adverse impact on State Street Bank other than the circumstances outlined in the Management's Discussion and Analysis section of the State Street Bank's "1998 Annual Report under Resolution 2000 Program Scope and Oversight and Factors Affecting Future Results."

SunTrust Bank, Central Florida, National Association

SunTrust Bank has stated that it is aware of the problems that may be presented for certain computer systems by the Year 2000 issue, and that it has developed and implemented programs to help assure that its systems, as the same relate to the timely payment of principal and interest to bondholders, will continue to function appropriately. However, the ability of SunTrust Bank to facilitate the timely payment of principal and interest is also dependent upon the Year 2000 compliance of other parties including, but not limited to, third party vendors from whom SunTrust Bank licenses software and hardware, third party vendors on whom SunTrust Bank relies for information or the provision of services, including telecommunication and electrical utility service providers, and DTC, among others. SunTrust Bank has advised the County that it has contacted these third parties to make them aware of the Year 2000 issue and has requested a status update of their Year 2000 readiness. Timely payment of the Bondholders may be adversely impacted if the SunTrust Bank's systems and third parties with whom it transacts business, including DTC, are not compliant in a timely manner.

The Depository Trust Company, New York, New York ("DTC")

DTC management is aware that some computer applications, systems, and the like for processing data ("Systems") that are dependent upon calendar dates, including dates before, on, and after January 1, 2000, may encounter "Year 2000 problems." DTC has informed its Participants and other members of the financial community (the "Industry") that it has developed and implemented a program so that its Systems, as the same relate to the timely payment of distributions (including principal and income payments) to security holders, book-entry deliveries, and settlement of trades within DTC ("DTC Services"), continue to function appropriately. This program includes a technical assessment and a remediation plan, each of which is complete.

However, DTC's ability to perform properly its services is also dependent upon other parties, including, but not limited to, issuers and their agents, as well as third party vendors from whom DTC licenses software and hardware, and third party vendors on whom DTC relies for information or the provision of services, including telecommunication and electrical utility service providers, among others. DTC has informed the Industry that it contacted third party vendors from whom DTC acquires services to: (i) impress upon them the importance of such services being Year 2000 compliant; and (ii)

determine the extent of their efforts for Year 2000 remediation (and, as appropriate, testing) of their services. In addition, DTC has developed contingency plans as it deems appropriate.

According to DTC, the foregoing information with respect to DTC has been provided to the Industry for informational purposes only and is not intended to serve as representation, warranty, or contract modification of any kind.

Concluding Statement

As of May 31, 2000, the County has experienced no significant problems with its computer hardware and software and other equipment as a result of the Year 2000 issue; and the County has not been made aware of any significant Year 2000 problems by any of its third party vendors or agents. Because of the unprecedented nature of the Year 2000 issue, problems related to the Year 2000 issue may yet occur that would affect the County. The County intends to continue to monitor its computer hardware and software and other equipment, and that of its essential third-party vendors, for the purpose of identifying, assessing and, if possible, mitigating the effects of any Year 2000 problem that may become evident following the date of this *Annual Report to Bondholders*.

BOND CONSULTANTS

After a selection process, the County established a pool of underwriting firms from which it selects an underwriting team for each of its negotiated bond matters. This pool, however, is not used by its peripheral authorities. Within the pool, there are three teams of five firms and one team of three firms (the "Certified Team"). Each member of a team serves as a co-senior manager or senior manager depending on prior designations. The Certified Team is comprised of minority firms exclusively and may be assigned to County transactions of less than \$50 million. The County also assigns pre-approved underwriting firms to the positions of co-managers. The number of co-managers depends on the size of the transaction. The pool of underwriting firms is scheduled to terminate in the summer of 2000. Pursuant to Ordinance No. 99-73 which enables the County Manager to issue an request for qualifications for underwriters, the County is currently in the process of selecting a new pool of underwriting firms, base solely on each firm's financial expertise and capabilities, specifically capital strength and ability to underwrite and market bonds effectively. Until the new pool of underwriting firms are selected, the old pool of underwriting firms will be used to underwrite any County bond transactions.

The County utilizes a pool of bond counsel firms which it selected after a competitive process. In November, 1998, the County selected a bond counsel pool consisting of three joint ventures with arrangements between nationally recognized bond counsel firms and local minority-owned bond counsel firms. The pool was established for a three-year period and two one-year extensions. At the same time the bond counsel pool was selected, the County selected a disclosure counsel pool consisting of four joint ventures with arrangements between nationally recognized firms with an expertise in municipal finance and local minority-owned firms with an expertise in municipal finance to act as disclosure counsel. In addition and at the same time, the County established another bond counsel pool, again consisting of joint ventures with arrangements between nationally recognized bond counsel firms and local minority-owned bond counsel firms, to act as bond counsel for the County's peripheral authorities. The bond counsel and disclosure counsel firms will be rotated between firms on County and County peripheral authorities bond transactions by amount of prior compensation.

The County selected three firms to serve as financial advisors to the County after a competitive process. One firm represents the County on all general financial matters other than Seaport, Aviation, and Water and Sewer Departments, which are handled by the other two firms. The contracts with the financial advisors commenced August 1, 1995 and are automatically extended for one year intervals through August 1, 2000, unless terminated by the County ninety (90) days prior to the anniversary date.

The County selects all of its other consultants (i.e., paying agents, registrars, escrow agents, swap providers, etc.) by competitive bid.

MIAMI-DADE COUNTY, FLORIDA
Public Improvement Bonds
General Obligations of Miami-Dade County
(Decade of Progress Projects)

SECURITY FOR AND SOURCES OF PAYMENT OF THE BONDS

General Obligation Pledge

The Public Improvement Bonds (the "Bonds") are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the prompt payment of both principal of and interest on the Bonds as the same become due and payable. Pursuant to the Florida Constitution, there is no limit on the amount of ad valorem taxes a county may levy for the payment of general obligation bonds.

THE PUBLIC IMPROVEMENT (DECADE OF PROGRESS) PROGRAM

Purposes

On November 7, 1972, a referendum authorized the issuance of the County's Public Improvement Bonds, also known as the Decade of Progress Bonds, in the amount of \$553,100,000 to provide funds which, together with other available funds, were to be used for the purpose of paying the following projects. As of September 30, 1999, all but \$1,280,000 have been issued.

\$50,000,000 - Sanitary Sewage Systems for the County, which included the acquisition, construction, enlargement, improvement and extension of sewage treatment plants, pumping stations, disposal systems, interceptors and transmission lines and the acquisition of necessary land and equipment.

\$50,000,000 - Solid Waste Disposal Facilities for the County, which included the construction, enlargement and improvement of incinerators, milling plants, trash milling facilities, transfer stations and sanitary landfills and the acquisition of land and necessary equipment.

\$132,500,000 - Unified Transportation System for the County, which included aerial fixed guideway rapid transit facilities, bus transportation facilities and equipment, together with the acquisition of the necessary land and right-of-ways.

\$88,600,000 - Health Care Facilities for the County, which included the acquisition, construction, enlargement, replacement, modernization and improvement of buildings and facilities and the construction of parking garages and site improvements at the Jackson Memorial Hospital Complex, community health centers and mental health centers, and the acquisition of necessary land, furnishings and equipment.

\$34,700,000 - Public Library System of the County, which included the construction of public library buildings and the improvement of certain existing library buildings and the acquisition of the necessary land, furnishings and equipment.

\$75,800,000 - Recreational and Cultural Improvements and Facilities for the County, which included the acquisition, construction, enlargement and improvements of parks, athletic facilities and recreational centers, beach improvements, campground improvements, marina enlargements and improvements, linear parks developments and improvements, landscape beautification, wayside parks,

bicycle pathways, Miami-Dade County Auditorium improvements, improvements at Vizcaya, including the construction of the new Arts Building, additions to the Museum of Science and Natural History, and a parking facility, the acquisition of the necessary sites and equipment, and the construction of administrative facilities.

\$8,000,000 - Zoological Park for the County, which included construction of animal exhibit areas, acquisition of animals, educational facilities, internal transportation system and all necessary support facilities.

\$113,500,000 - Street and Safety Improvements for the County, which included the acquisition and construction of traffic signals, a coordinated automatic traffic signal control system with pedestrian safety features, bus preemption capability, railroad crossing protection devices, streets lighting, signs and appurtenances, intersection improvements, bus turning, storage and pull-out areas, construction and replacement of bridges, extending, widening, paving and surfacing streets, necessary drainage, curbs, gutters, sidewalks and landscaping and the necessary acquisition of land and rights-of-way.

The following table shows the authorization of the Projects as voted upon by the voters of Miami-Dade County and the Series of Bonds that were issued.

⁽¹⁾ Of the \$132,500,000 authorized for the Unified Transportation System, \$116,826,000 was allocated to the MetroRail System and \$15,674,000 was allocated to the MetroBus System.

⁽²⁾ As of September 30, 1999, there remains \$1,280,000 authorized and not issued.

MIAMI-DADE COUNTY, FLORIDA
Public Improvement Bonds
General Obligations of Miami-Dade County
(Criminal Justice Projects)

SECURITY FOR AND SOURCES OF PAYMENT OF THE BONDS

General Obligation Pledge

The Criminal Justice General Obligation Bonds (the "Bonds") are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the prompt payment of both principal of and interest on the Bonds as the same become due and payable. Pursuant to the Florida Constitution, there is no limit on the amount of ad valorem taxes a county may levy for the payment of general obligation bonds.

THE CRIMINAL JUSTICE FACILITIES PROGRAM

Purposes

On November 2, 1982, the electorate of the County approved by a 3-2 margin the issuance of General Obligation Public Improvement Bonds, also known as the Criminal Justice Facilities Bond Program, in the maximum amount of \$200,000,000. The funds have been allocated as described below for the following programs:

Corrections - \$26,931,428 for the Turner Guilford Knight 1,000 bed jail next to the Stockade on N.W. 36 Street at N.W. 72 Avenue; \$92,678 to study the feasibility of a new jail in the Civic Center; a \$200,000 renovation of the Civic Center jail's 10th floor; \$27,662,000 toward construction of the Metro West Detention Center, a 2,200 bed jail located on N.W. 41 Street at N.W. 138 Avenue; \$4,083,000 for security control upgrades, \$4,000,000 for a 300 bed capacity expansion and \$1,187,000 for kitchen and laundry upgrades at the Turner Guilford Knight jail; \$3,600,000 for medical facility modifications at the Pretrial Detention Center, the Women's Detention Center and the Turner Guilford Knight jail; \$1,700,000 for a substance abuse offender rehabilitation facility; \$710,000 for a boot camp facility at the existing Stockade; \$1,769,000 to construct the Ward D jail medical facility at Jackson Memorial Hospital; a \$745,000 renovation of the Women's Detention Center; and, \$15,164,894 for utility infrastructure and site preparation for future jail facilities at Krome Avenue and S.W. 8 Street.

Law Enforcement - \$28,056,000 for the combined Headquarters and Doral District station located at N.W. 25 Street and N.W. 92 Avenue; \$2,123,000 for the Hammocks District station located at S.W. 142 Avenue and S.W. 100 Street; \$4,290,000 for the Police Training Center located at N.W. 58 Street and N.W. 96 Avenue; and \$4,000,000 allocated to construct the new District 9 station on N.W. 27 Avenue north of N.W. 183 Street.

Courts and Court Related - \$6,670,000 for the construction of the North Miami-Dade Justice Center located at 15555 N.E. Biscayne Boulevard; \$8,220,000 toward the renovation of the State's Graham Office Building in the Civic Center for the State Attorney; \$4,700,000 for the renovation of the former Metro Police building housing the Public Defender in the Civic Center; \$3,800,000 for life safety renovations and courtroom remodeling in the Miami-Dade County Courthouse; \$877,000 for renovations in the Juvenile Justice Center at 3300 N.W. 27 Avenue; and \$19,055,000 for life safety

renovations and twelve new courtrooms in the Richard E. Gerstein Justice Building located in the Civic Center.

Other Facilities - \$1,660,000 for the Criminal Justice Institute at Miami-Dade Community College; a \$134,000 design study of the Justice Center area in the Civic Center; \$12,000,000 toward the construction of the Medical Examiner's facility located at One Bob Hope Road; \$1,647,000 for the Clerk of the Court's Record Center located at 9350 N.W. 12 Street; \$5,249,000 for construction of the South Miami-Dade Government Center Court Annex; and \$9,674,000 of infrastructure improvements in the Justice Center area including an energy complex to serve all court-related facilities.

The above stated allocations within project categories were estimates of expected expenditures for each project category. The table below shows the final allocation of bond proceeds within the above project categories.

MIAMI-DADE COUNTY, FLORIDA
General Obligations Bonds
(Parks Program)

SECURITY FOR AND SOURCES OF PAYMENT OF THE BONDS

General Obligation Pledge

The Parks Program General Obligation Bonds (the "Bonds") are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the prompt payment of both principal of and interest on the Bonds as the same become due and payable. Pursuant to the Florida Constitution, there is no limit on the amount of ad valorem taxes a county may levy for the payment of general obligation bonds.

THE PARKS PROGRAM

Purposes

On November 5, 1996, a referendum authorized the issuance of the Bonds in the amount of \$200,000,000 to provide funds which are to be used for the purpose of paying the following projects. As of September 30, 1999, \$76,000,000 of Bonds have been issued.

- (1) \$37,268,000 to 14 municipalities in the County for application to 76 specific parks projects;
- (2) \$50,732,000 to the County to be spent in the unincorporated municipal services areas of the County on 33 specific park projects throughout the unincorporated area;
- (3) \$77,050,000 to the County Park and Recreation Department (the "Department") for development, improvement, restoration, rehabilitation or acquisition of real property for (a) beaches and Biscayne Bay access consisting of eight specific projects; and (b) for regional parks, regional recreation or heritage facilities and natural preserves consisting of 24 specific projects, including four specific projects totaling \$14,000,000 of park development to promote juvenile crime prevention;
- (4) \$9,700,000 to be divided among the incorporated municipalities on a per capita basis;
- (5) \$10,250,000 to the County as its per capita municipal share; and
- (6) \$15,000,000 for challenge grants to public agencies and not-for-profit organizations to be used for (a) land acquisition, construction and development of youth recreation and service facilities (\$7,000,000) and (b) natural areas, recreation and open space land acquisition and development (\$8,000,000).

Pursuant to Ordinance No. 96-115 (the "Bond Referendum"), the Board created the Citizen Oversight Committee (the "Committee") consisting of 13 members one each appointed from the 13 respective County Commission districts. The chief functions of the Committee are to designate the portions of the Parks Program to be financed from each Series of Bonds and to monitor the application of Bond proceeds to ensure that the Bond proceeds are being spent in accordance with the Bond Referendum.

The Committee has allocated the proceeds of the Bonds to the categories as stated below:

Bonded Indebtedness, Various Debt Ratios and General Fund Summary

The following tables show the details of the County's general obligation bonds, special obligation bonds, certificates and notes, principal and interest requirements of general obligation and special obligation debt, and significant comparative ratios of debt to population and to the County's tax base.

In addition to the County's general obligation bonds, on November 4, 1986, the voters of the County approved the issuance of general obligation bonds of the County in the principal amounts of \$131,474,000 for financing capital improvements to the County's Water and Sewer System and for refunding previously issued water and sewer system bonds, \$153,513,500 for financing capital improvements to the Port, which is owned and operated by the County, and for refunding previously issued bonds for the Port, and \$247,500,000 for financing capital improvements to the County's airports and for refunding previously issued bonds for the airports. Said general obligation bonds are to be payable first from revenues of the County's Water and Sewer System, the Port and the County's airports, respectively, and, to the extent such revenues are insufficient, from unlimited ad valorem taxes. Of the amounts approved by the voters, only the general obligation bonds for the Port have been issued to date.

Total Special Obligation Bonds			<u>\$1,188,691,624</u>	<u>\$998,028,183</u>

(1) Payable from the guaranteed portion of State revenue sharing receipts.

(2) Bonds were issued as "Capital Appreciation Bonds," the amount reflected as outstanding represents the accreted value as of September 30, 1999.

(3) Payable exclusively from Sales Tax Revenue from the local government half-cent sales tax collected in the County by the State.

(4) Payable from Legally Available Non-Ad Valorem Revenue budgeted and appropriated annually by the County.

(5) Payable from Special Assessment Revenue levied and imposed against the property within the Taxing District. The total amount issued was \$3,830,000 of which 46.5% or \$1,780,950 represented the County's portion.

(6) Payable from pledged filing and service charge revenues.

- ⁽¹⁾ Included in the Miscellaneous Revenue under the Approved Budget 2000 Fiscal Year column in the above table are all unencumbered funds carried forward from the prior Fiscal Year available for the appropriation of 2000 expenditures. State law permits counties and municipalities to appropriate 95% of estimated revenues to be collected in the ensuing Fiscal Year plus the excess funds from prior years as the basis for authorizing levels expenditures. Excess funds from prior years considered in the budgetary process are not presented as revenue for financial reporting purposes and generally accepted accounting principles.

- ⁽²⁾ The increase between Fiscal Years 1999 and approved 200 Budget for this line item reflects the planned utilization of funds in the Environmental Endangered Land Program (carryover into Fiscal Year 2000 of \$72.5 Million).

\$46,000,000
Dade County, Florida
Public Improvement Bonds
Series E

Dated: April 1, 1976

Final Maturity: 2001

Purpose:

The Series E Bonds were issued pursuant to Resolution Nos. R-1843-72 to R-1850-72 and Resolution No. R-115-76 to finance a portion of the costs of the projects approved by the voters of Miami-Dade County on November 7, 1972.

Security:

The Series E Bonds are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the payment of principal and interest on the Series E Bonds.

Form:

Denominations of \$5,000; coupon bonds registrable as to principal alone; principal and semi-annual interest payable April 1 and October 1 of each year, commencing October 1, 1976.

Agents:

Successor Registrar:	The Chase Manhattan Bank, New York, New York
Successor Paying Agent:	The Chase Manhattan Bank, New York, New York
Bond Counsel:	Brown, Wood, Ivey, Mitchell & Petty, New York, New York
Insurance Provider:	NONE

Ratings:

Moody's:	A1
Standard & Poor's:	A+

Call Provisions:

Optional Redemption:

The Series E Bonds which mature after April 1, 1986, may be redeemed, at the option of the County, prior to their respective maturities in whole only on any date not earlier than April 1, 1986, with the interest accrued thereon to the date of redemption at the applicable Redemption Price.

Redemption Dates	Redemption Price
April 1, 1986 through April 1, 1989	104%
April 2, 1989 through April 1, 1993	103
April 2, 1993 through April 1, 1997	102
April 2, 1997 through March 31, 2001	101

Mandatory Redemption: NOT SUBJECT TO MANDATORY REDEMPTION

Projects Funded with Proceeds:

The projects financed with the proceeds of the Series E Bonds include the additional phases of the Solid Waste Disposal Facilities, Health Care Facilities, Public Library System, Recreational and Cultural Improvements and Facilities, Zoological Park and Street and Safety Improvements.

\$50,000,000
Dade County, Florida
Public Improvement Bonds
Series H

Dated: June 1, 1978

Final Maturity: 2003

Purpose:

The Series H Bonds were issued pursuant to Resolution Nos. R-1843-72 to R-1850-72 and Resolution No. R-460-78 to finance a portion of the costs of the projects approved by the voters of Miami-Dade County on November 7, 1972.

Security:

The Series H Bonds are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the payment of principal and interest on the Series H Bonds.

Form:

Denominations of \$5,000; coupon bonds registrable as to principal alone; principal and semi-annual interest payable on June 1 and December 1 of each year, commencing December 1, 1978.

Agents:

Successor Registrar:	The Chase Manhattan Bank, New York, New York

\$26,000,000
Dade County, Florida
General Obligation Bonds (Parks Program),
Series 1998

Dated: November 1, 1998

Final Maturity: 2023

Purpose:

The Series 1998 Bonds were issued as a Series of the Parks Facilities Bond Program approved by the voters of the County on November 5, 1996 to pay part of the cost of a capital improvement program for improvements to, and acquisition of, neighborhood and regional parks, beaches, natural areas and recreation and heritage facilities in the County in the aggregate principal amount of \$200,000,000. The Series 1998 Bonds were issued pursuant to Ordinance No. 96-115, Resolution Nos. R-1193-97, R-1160-98 and R-1183-98.

Security:

The Series 1998 Bonds are general obligations of the County and are payable from unlimited ad valorem taxes on all taxable real and tangible property within the County (excluding exempt property as required by Florida law). The full faith, credit and taxing power of the County are irrevocably pledged to the payment of principal and interest on the Series 1998 Bonds.

Form:

The Series 1998 Bonds were issued as fully registered bonds, without coupons and registered in the name of The Depository Trust Company, New York, New York. The Series 1998 Bonds were in book-entry form and issued in denominations of \$5,000 or any integral multiples of \$5,000. The interest on the Series 1998 Bonds will be payable semi-annually on May 1 and November 1 of each year, commencing May 1, 1999.

Call Provisions:

Optional Redemption:

The Series 1998 Bonds maturing on or after November 1, 2009 are subject to redemption prior to maturity, at the option of the County, in whole or in part on any date, on or after November 1, 2008, in such order as the County shall select and by lot within any maturity, at the following redemption prices (expressed as a percentage of the principal amounts of the Series 1998 Bonds, or portions of the Series 1998 Bonds being redeemed), plus accrued interest to the date of redemption:

Redemption Dates	Redemption Price
November 1, 2008 to October 31, 2009	101%
November 1, 2009 to October 31, 2010	100½
November 1, 2010 and thereafter	100

Mandatory Redemption:

The Series 1998 Term Bonds maturing on November 1, 2023 are subject to mandatory sinking fund redemption in part by lot at the times and in the amounts set forth below at a redemption price equal to 100% of the principal amount of the Series 1998 Bonds being redeemed, plus accrued interest to the date of redemption and without a premium:

Redemption Dates	Amount
2021	\$1,560,000
2022	1,640,000
2023 (Final Maturity-2023 Term)	1,720,000

Mandatory Tender for Purchase

In addition to being subject to optional redemption by the County, the Series 1998 Bonds are subject to mandatory tender for purchase, at the option of the County, at the same times and prices as established for optional redemption.

Projects Funded with Proceeds:

The Parks Program is construction of or acquisition of: (i) 76 specific municipal park projects; (ii) 33 specific unincorporated parks projects; (iii) 8 specific beach or Biscayne Bay access projects; (iv) 24 regional parks, regional recreation areas, heritage facilities or natural preserves projects (4 of these projects shall be for juvenile crime prevention); (v) non-specific municipal park projects; (vi) non-specific unincorporated parks projects; and (vii) County-wide challenge grants.
